

Dreams Take Flight Halifax Child Medical Release Form

This child is being considered for a trip to a Disney Theme Park in Orlando, Florida with Dreams Take Flight Halifax.

The entire journey, from arrival at the airport until return, can last up to 24 hours. Children will arrive at the airport very early in the morning and return the same day near midnight. The trip through the amusement park may be fast paced and participants may be exposed to food and hot weather that they are not familiar with.

1. Will this child be able to tolerate such a rigorous trip? Yes No

2. What medical problems does this child have? Please list diagnoses.

3. What medications does this child take? Please specify drug name, dosage amount to be given in ml, times to be given, and the route (mouth, injection, etc.). Please use the back of this form if you require more room.

4. Can the child self administer the medication? Yes No

If no, who should administer the medication? _____

5. Will a 25-30% reduction in the ambient partial pressure of oxygen affect this child's medical condition? Yes No

6. Is oxygen needed in flight? Yes No

If yes, please specify how many liters per minute of oxygen is required. _____

7. Does this child have anemia? Yes No If yes, what is their hemoglobin level? _____

8. Does this child need assistance with toilet/diaper changing? Yes No

9. Will this child require any additional care from a health care provider during this trip? Yes No

10. Please list any additional medical information that we may need to know about this child.

11. Is this child medically fit to travel by plane? Yes No
